SUMMARY

Full-stack JavaScript developer building production React, Node.js, Express, and MongoDB applications end to end, from schema design through JWT-secured REST APIs to responsive React interfaces. Currently an Associate Software Engineer at Steganox AI, delivering authentication, task management, and admin dashboard features to production. Experienced with real-time WebSocket systems, role-based access control, Docker deployment, and automated testing with Vitest.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, C++

Frontend: React.js, Redux, Zustand, Tailwind CSS, responsive design, Framer, GSAP, reusable component architecture

Backend: Node.js, Express.js, RESTful API design, Mongoose, middleware, WebSocket (Socket.IO), JWT authentication, role-based access control

Databases: MongoDB, PostgreSQL, MySQL, Oracle, SQL (SQL*Plus, MySQL Workbench), schema design

Testing: Vitest, React Testing Library, unit and component testing

Tools and Deployment: Git, GitHub, Docker, Postman, Vercel, Netlify

Practices: Agile / Scrum, code review, REST API integration

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Steganox, Lahore, Pakistan | Dec 2025 – Present

- Own end-to-end delivery of 12 production features across the stack, defining MongoDB schemas, building JWT-secured Express REST endpoints, and shipping the React interfaces that consume them.
- Designed and shipped 25+ REST endpoints and 6 admin dashboard modules covering authentication, task management, and project data, enforcing role-based access control across 3 user roles.
- Refactored shared Express middleware and MongoDB query layers used across 8 modules, cutting average endpoint response time from 180ms to 95ms.

Frontend Developer Intern

AppVerse Technologies, Lahore, Pakistan | Jun 2025 – Oct 2025

- Built and shipped 20+ reusable React and Tailwind CSS components powering 12 live customer-facing screens, cutting build time per new screen by 40%.
- Integrated React components with 20+ backend REST endpoints, implementing loading, error, and empty states across 8 product flows.

PROJECTS

Collaborink: Real-Time Team Collaboration Platform | github.com/NoraizRana/collaborink-platform

- Built a full-stack collaboration platform with Kanban task management, real-time chat, file sharing, and notifications across 8 feature modules.
- Implemented real-time sync over WebSocket (Socket.IO) and JWT authentication with automatic token refresh, holding API response times under 100ms in local load testing.
- Reached 60%+ automated test coverage with Vitest and React Testing Library, and containerized the stack with Docker for reproducible deployment across environments.

Tech: React.js, Zustand, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.IO, JWT, Docker, Vitest

Steganox Company Website | steganox.com

- Led a multi-phase audit and overhaul of the company's production website: diagnosed and fixed a critical Spline 3D bug causing it to load on every page via the root layout, and rebuilt the font pipeline with next/font.
- Improved SEO and discoverability with structured metadata and Open Graph tags, and led a full responsiveness and UI polish pass across navbar, footer, and testimonials carousel.

Tech: Next.js 15, Tailwind CSS v4, Spline 3D, SEO

Voice-Enabled Virtual Teaching Assistant (Final Year Project) | github.com/NoraizRana/aoa-virtual-assistant

- Led a 3-person team, owning the information retrieval pipeline, REST API, and React interface for a domain-specific Analysis of Algorithms teaching assistant.
- Built a custom NLP retrieval pipeline using TF-IDF vectorization and cosine similarity over a 15,000+ question-answer dataset, reaching 79% answer accuracy in supervisor evaluation with no external AI APIs.
- Added voice interaction via the Web Speech API, plus JWT authentication with Admin and Student role-based access and per-user query history.

Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Python, TF-IDF, semantic similarity, Web Speech API

EDUCATION

BS Information Technology, University of Sargodha

Sargodha, Pakistan | 2026 | GPA 3.4 / 4.0
